NKONKOB E ECONOMIC DEVELOPMENT AGENCY

GENERAL INFORMATION

Country of incorporation and domicile	South Africa
Legal form of entity	Non Profit Organisation (Section 18A Company)
Nature of business and principal activities	To promote and stimulate economic growth in the Raymond Mhlaba district
Company registration number	2002/007921/08
Registered office	317 Garden Street Alice 5700
Postal address	P O Box 438 Alice 5700
Telephone number	(040) 653 2935
Fax number	(040) 653 2938
E-mail address	mali@nkonkobedevelopment.org.za
Holding entity	Raymond Mhlaba Local Municipality
Bankers	ABSA Bank
Auditors	Auditor General of South Africa
Chief Executive Officer (CEO)	Mr MH Mali
Board Members	Ms Fezeka Maqwati (Chairperson) Mr Mpho Pebane Mr Mlungisi Nyweba Ms Vicky Nkomana

NKONKOBÉ ECONOMIC DEVELOPMENT AGENCY

DIRECTORS' RESPONSIBILITIES AND APPROVAL

The directors are required by the Companies Act of South Africa, 2008 as amended, to maintain adequate accounting records and are responsible for the content and integrity of the annual financial statements and related financial information included in this report. It is their responsibility to ensure that the annual financial statements fairly present the state of affairs of the Entity as at the end of the financial year and the results of its operations and cash flows for the period then ended, in conformity with Generally Recognised Accounting Practice (GRAP). The external auditors are engaged to express an independent opinion on the annual financial statements.

The annual financial statements are prepared in accordance with Generally Recognised Accounting Practice (GRAP) and the Companies Act of South Africa, 2008 as amended, and are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgments and estimates.

The directors acknowledge that they are ultimately responsible for the system of internal financial control established by the Entity and place considerable importance on maintaining a strong control environment. To enable the directors to meet these responsibilities, the board sets standards for internal control aimed at reducing the risk of error or loss in a cost effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the Entity and all employees are required to maintain the highest ethical standards in ensuring the Entity's business is conducted in a manner that in all reasonable circumstances is above reproach. The focus of risk management in the Entity is on identifying, assessing, managing and monitoring all known forms of risk across the Entity. While operating risk cannot be fully eliminated, the Entity endeavours to minimise it by ensuring that appropriate controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints.

The directors are of the opinion, based on the information and explanations given by management, that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the annual financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or loss.

The directors have reviewed the Entity's cash flow forecast for the period ending 30 June 2018 and, in the light of this review and the current financial position, they are satisfied that the Entity has or has access to adequate resources to continue in operational existence for the foreseeable future. For the current year and for the foreseeable future the Entity will be dependable on grants from the Raymond Mhlaba Local Municipality.

The external auditors are responsible for independently providing reasonable assurance by reviewing and reporting on the Entity's annual financial statements.

The annual financial statements set out on pages 2 to 46, which have been prepared on the going concern basis, were approved by the board and were signed on its behalf by:

Chief Executive Officer (CEO)
Mr MH Mali

Refer to note 25 for explanations of material variances.

NKONKOBÉ ECONOMIC DEVELOPMENT AGENCY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

1 ACCOUNTING POLICIES

1.01 BASIS OF PREPARATION

The financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention, unless specified otherwise.

The financial statements have been prepared in accordance with the Municipal Finance Management Act (MFMA) and effective standards of Generally Recognised Accounting Practices (GRAP), including any interpretations and directives issued by the Accounting Standards Board (ASB) in accordance with Section 122(3) of the Municipal Finance Management Act, (Act No 56 of 2003).

Accounting policies for material transactions, events or conditions not covered by the GRAP reporting framework, have been developed in accordance with paragraphs 8, 10 and 11 of GRAP 3 (Revised – November 2013) and the hierarchy approved in Directive 5 issued by the Accounting Standards Board.

Assets, liabilities, revenue and expenses have not been offset, except when offsetting is permitted or required by a Standard of GRAP.

The accounting policies applied are consistent with those used to present the previous year's financial statements, unless explicitly stated otherwise. The details of any changes in accounting policies are explained in the relevant notes to the financial statements.

A summary of the significant accounting policies, which have been consistently applied except where an exemption has been granted, are disclosed below.

1.02 TRANSITIONAL PROVISIONS

The Entity did not take advantage of any transitional provisions in the current year.

1.03 PRESENTATION CURRENCY

The financial statements are presented in South African Rand, rounded off to the nearest Rand, which is the Entity's functional currency.

1.04 GOING CONCERN ASSUMPTION

These financial statements have been prepared on a going concern basis.

NKONKOBÉ ECONOMIC DEVELOPMENT AGENCY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

1.05 COMPARATIVE INFORMATION

1.05.1 Prior year comparatives

When the presentation or classification of items in the financial statements are amended, prior period comparative amounts are restated, unless a standard of GRAP does not require the restatements of comparative information. The nature and reason for the reclassification is disclosed.

Where material accounting errors, which relate to prior periods, have been identified in the current year, the correction is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly.

Where there has been a change in accounting policy in the current year, the adjustment is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly.

1.05.2 Amended Accounting Policies

Amendments to accounting policies are reported as and when deemed necessary based on the relevance of any such amendment to the format and presentation of the financial statements.

No significant amendments were made to the accounting policy in the current year.

1.06 MATERIALITY

Material omissions or misstatements of items are material if they could, individually or collectively, influence the decision or assessments of users made on the basis of the financial statements. Materiality depends on the nature or size of the omission or misstatements judged in the surrounding circumstances. The nature or size of the information item, or a combination of both, could be the determining factor. Materiality is determined as 1% of total operating expenditure. This materiality is from management's perspective and does not correlate with the auditor's materiality.

1.07 BUDGET INFORMATION

Budget information is presented on the accrual basis and is based on the same fiscal period as the actual amounts.

The Statement of Comparison of Budget and Actual Amounts includes the comparison between the approved and final budget amounts, as well as a comparison between the actual amounts and final budget amounts.

The disclosure of comparative information in respect of the previous period is not required by the Standards of GRAP.

NKONKOBÉ ECONOMIC DEVELOPMENT AGENCY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

1.08 NEW STANDARDS, AMENDMENTS TO STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE

1.08.1 Effective dates determined

Where a Standard of GRAP has been issued but is not yet effective, the Entity may resolve to early adopt such a Standard of GRAP if an effective date has been determined by the Minister of Finance.

The Entity resolved to early adopt any of the following amended Standards of GRAP which were issued but are not yet effective:

Standard	Description	Effective Date
GRAP 12 (2017)	Inventories	1 April 2018
GRAP 16 (2017)	Investment Property	1 April 2018
GRAP 17 (2017)	Property, Plant and Equipment	1 April 2018
GRAP 21 (2017)	Impairment of non-cash-generating assets	1 April 2018
GRAP 26 (2017)	Impairment of cash-generating assets	1 April 2018
GRAP 27 (2017)	Agriculture	1 April 2018
GRAP 31 (2017)	Intangible Assets	1 April 2018
GRAP 103 (2017)	Heritage Assets	1 April 2018
GRAP 106 (2017)	Transfer of Functions Between Entities Not Under Common Control	1 April 2018

The effect of the above-mentioned amended Standards of GRAP which were early adopted is considered insignificant. The amendments to the Standards of GRAP mainly relate to the clarification of accounting principles.

The Entity resolved not to early adopt the following Interpretation of the Standard of GRAP which was issued but is not yet effective:

Standard	Description	Effective Date
iGRAP 18 (2017)	Recognition and Derecognition of Land	1 April 2019

When the above-mentioned Interpretation of the Standards of GRAP becomes effective, the effect will be insignificant as the Entity's current treatment is already in line with the interpretation's requirements and will only result in additional disclosure.

The Entity further resolved not to early adopt Directive 12 - "The Selection of an Appropriate Reporting Framework by Public Entities" (effective 1 April 2018) as this Directive is not applicable to municipal entities and will have no impact on the Entity once it becomes effective.

NKONKOBÉ ECONOMIC DEVELOPMENT AGENCY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

1.08.2 Effective dates not yet determined

Where a Standard of GRAP has been issued but not yet effective and the Minister of Finance has not yet determined an effective date, the Entity may select to apply the principles established in that standard in developing an appropriate accounting policy dealing with a particular section or event.

The following Standards of GRAP have been issued but are not yet effective as the Minister of Finance has not yet determined the effective date for application:

1.08.2.1 GRAP 18 - Segment Reporting (Original - February 2011)

The objective of this Standard is to establish principles for reporting financial information by segments.

Preliminary investigations indicated that, other than additional disclosure, the impact of the Standards on the financial statements will be not be significant.

1.08.2.2 GRAP 20 - Related Party Disclosure (Original - June 2011)

The objective of this Standard is to ensure that a Entity's financial statements contains the disclosures necessary to draw attention to the possibility that its financial position and surplus or deficit may have been affected by the existence of related parties and by transactions and outstanding balances with such parties.

The Entity resolved to develop an accounting policy as set out in note 1.31 and also adopt the disclosure requirements of this Standard.

The impact of this Standard on the financial statements will be minimal.

1.08.2.3 GRAP 32 - Service Concession Arrangements: Grantor (Original - August 2013)

The objective of this Standard is to prescribe the accounting for service concession arrangements by the grantor and a public sector entity.

Preliminary investigations indicated that, other than possibly additional disclosure, the impact of the Standards on the financial statements will be not be significant.

1.08.2.4 GRAP 34 - Separate Financial Statements (Original - March 2017)

The objective of this Standard is to prescribe the accounting and disclosure requirements for investments in controlled entities, joint ventures and associates when an entity prepares separate financial statements.

No significant impact is expected as the Entity has no investments in any entities.

1.08.2.5 GRAP 35 - Consolidated Financial Statements (Original - March 2017)

The objective of this Standard is to establish principles for the presentation and preparation of consolidated financial statements when an entity controls one or more other entities.

No significant impact is expected as the Entity does not control any entities.

NKONKOBÉ ECONOMIC DEVELOPMENT AGENCY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

1.08.2.6 GRAP 36 - Investments in Associates and Joint Ventures (Original - March 2017)

The objective of this Standard is to prescribe the accounting for investments in associates and joint ventures and to set out the requirements for the application of the equity method when accounting for investments in associates and joint

No significant impact is expected as the Entity does not have investments in any associates or joint ventures.

1.08.2.7 GRAP 37 - Joint Arrangements (Original - March 2017)

The objective of this Standard is to establish principles for financial reporting by entities that have an interest in arrangements that are controlled jointly (i.e. joint arrangements).

No significant impact is expected as the Entity does not have an interest in any arrangements that are controlled jointly.

1.08.2.8 GRAP 38 - Disclosure of Interests in Other Entities (Original - March 2017)

The objective of this Standard is to require an entity to disclose information that enables users of its financial statements to evaluate:

- (a) the nature of, and risks associated with, its interests in controlled entities, unconsolidated controlled entities, joint arrangements and associates, and structured entities that are not consolidated; and
- (b) the effects of those interests on its financial position, financial performance and cash flows.

No significant impact is expected as the Municipality does not have an interest in any entities, associates, joint ventures or joint arrangements.

1.08.2.9 GRAP 108 - Statutory Receivables (Original - September 2013)

The objective of this Standard is to prescribe accounting requirements for the recognition, measurement, presentation and disclosure of statutory receivables.

The Entity resolved to develop an accounting policy as set out in note 1.17.

The impact of this Standard on the financial statements will be minimal.

1.08.2.10 GRAP 109 - Accounting by Principles and Agents (Original - July 2015)

The objective of this Standard is to outline principles to be used by an entity to assess whether it is party to a principal-agent arrangement, and whether it is a principal or an agent in undertaking transactions in terms of such an arrangement.

No significant impact is expected as the Entity's current treatment is already in line with the Standard's requirements.

NKONKOBÉ ECONOMIC DEVELOPMENT AGENCY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

1.08.2.11 GRAP 110 - Living and Non-living Resources (Original - March 2017)

The objective of this Standard is to prescribe the:

- (a) recognition, measurement, presentation and disclosure requirements for living resources; and
- (b) disclosure requirements for non-living resources.

Preliminary investigations indicated that the Entity does not have non-living resources that fall within the scope of this Standard.

1.08.2.12 IGRAP 17 - Service Concession Arrangements Where a Grantor Controls a Significant Residual Interest in an Asset

This Interpretation of the Standards provides guidance to the grantor where it has entered into a service concession arrangement, but only controls a significant residual interest in a service concession asset at the end of the arrangement, where the arrangement does not constitute a lease.

Preliminary investigations indicated that, other than possibly additional disclosure, the impact of the Standards on the financial statements will be not be significant.

1.09 PROPERTY, PLANT AND EQUIPMENT

1.09.1 Initial Recognition

Property, plant and equipment are tangible non-current assets that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one year.

The cost of an item of property, plant and equipment is recognised as an asset if it is probable that future economic benefits or service potential associated with the item will flow to the Entity, and the cost or fair value of the item can be measured reliably.

Items of property, plant and equipment are initially recognised at cost on its acquisition date. The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the Entity. Trade discounts and rebates are deducted in arriving at the cost. The cost also includes the necessary costs of dismantling and removing the asset and restoring the site on which it is located.

Where an asset is acquired through a non-exchange transaction, the cost is deemed to be equal to the fair value of that asset as at date of acquisition and any other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the Municipality.

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, its deemed cost is the carrying amount of the asset(s) given up.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Spare parts and stand by equipment which are expected to be used for more than one period are included in property, plant and equipment.

NKONKOBÉ ECONOMIC DEVELOPMENT AGENCY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

1.09.2 Subsequent Measurement - Cost Model

Subsequent to initial recognition, items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. Land is not depreciated as it is deemed to have an indefinite useful life.

Where the Entity replaces parts of an asset, it derecognises the part of the asset being replaced and capitalises the new component. Subsequent expenditure incurred on an asset is capitalised when it increases the capacity or future economic benefits or service potential associated with the asset.

1.09.3 Depreciation

Depreciation of an asset begins when it is available for use, i.e. when it is in the location and condition necessary for it to be capable of operating in the manner intended by the Entity. Depreciation of an asset ceases at the date that the asset is derecognised.

Depreciation is calculated on the depreciable amount, using the straight-line method over the estimated useful lives of the assets. The depreciation charge for each period is recognised in Statement of Financial Performance, unless it is included in the carrying amount of another asset.

The depreciation method is reviewed at each reporting date, with the effect of any changes in estimate accounted for on a prospective basis.

At each reporting date the Entity assesses whether there is any indication that expectations about the residual value and the useful life of an asset may have changed since the preceding reporting date. If any such indication exists, the expected residual value and useful life are revised and the effect of any changes in estimate accounted for on the a prospective basis.

The annual depreciation rates are based on the following estimated useful lives:

	YEARS
Plant and Machinery	5
Furniture and fittings	5 - 8
Motor Vehicles	5
Office Equipment	5
IT Equipment	5

1.09.4 Impairment

Property, plant and equipment is reviewed at each reporting date for any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. The impairment recognised in the Statement of Financial Performance is the excess of the carrying value over the recoverable amount.

An impairment is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined had no impairment been recognised. A reversal of an impairment is recognised in the Statement of Financial Performance.

NKONKOBÉ ECONOMIC DEVELOPMENT AGENCY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

1.09.5 Derecognition

Items of property, plant and equipment are derecognised when the asset is disposed or when there are no further economic benefits or service potential expected from the use of the asset.

The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

Compensation from third parties for items of property, plant and equipment that were impaired, lost or given up is recognised in the Statement of Financial Performance when the compensation becomes receivable.

1.10 IMPAIRMENT OF NON-MONETARY ASSETS

An impairment is a loss in the future economic benefits or service potential of an asset, over and above the systematic recognition of the loss of the asset's future economic benefits or service potential through depreciation.

Cash-generating assets are assets held with the primary objective of generating a commercial return. Non-cash-generating assets are assets other than cash-generating assets.

The Entity assesses at each reporting date whether there is any indication that an asset may be impaired. If any such indication exists, the Entity estimates the recoverable amount of the asset.

1.10.1 Recoverable amount of Cash-generating assets

The recoverable amount of an asset or a cash-generating unit is the higher of its fair value less costs to sell and its value in use.

The best evidence of fair value less costs to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

Value in use of a cash-generating asset is the present value of the estimated future cash flows expected to be derived from the continuing use of an asset and from its disposal at the end of its useful life.

1.10.2 Recoverable amount of Non-cash-generating assets

The recoverable service amount is the higher of a non-cash generating asset's fair value less costs to sell and its value in use.

The value in use for a non-cash generating asset is the present value of the asset's remaining service potential. Fair value less costs to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

NKONKOBÉ ECONOMIC DEVELOPMENT AGENCY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

1.10.3 Impairment loss

If the recoverable amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. That reduction is an impairment loss.

An impairment loss of assets carried at cost less any accumulated depreciation or amortisation is recognised immediately in the Statement of Financial Performance.

An impairment loss of assets carried at a revalued amount in accordance with another Standard of GRAP is treated as a revaluation decrease in accordance with that Standard of GRAP.

After the recognition of an impairment loss, the depreciation (amortisation) charge for the asset is adjusted in future periods to allocate the asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

1.10.4 Reversal of an impairment loss

The Entity assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for assets may no longer exist or may have decreased. If any such indication exists, the recoverable amounts of those assets are estimated.

The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss of assets carried at cost less accumulated depreciation or amortisation is recognised immediately in the Statement of Financial Performance.

A reversal of an impairment loss of assets carried at a revalued amount in accordance with another Standard of GRAP is treated as a revaluation increase in accordance with that Standard of GRAP.

After the reversal of an impairment loss, the depreciation (amortisation) charge for the asset is adjusted in future periods to allocate the asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

1.11 INVENTORIES

1.11.1 Initial Recognition

Inventories are assets:

- (a) in the form of materials or supplies to be consumed in the production process;
- (b) in the form of materials or supplies to be consumed or distributed in the rendering of services;
- (c) held for sale or distribution in the ordinary course of operations; or
- (d) in the process of production for sale or distribution.

Inventories are recognised as an asset if it is probable that future economic benefits or service potential associated with the item will flow to the Entity, and the cost of the inventories can be measured reliably.

NKONKOBÉ ECONOMIC DEVELOPMENT AGENCY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

Inventories are initially recognised at cost. Cost generally refers to the purchase price, plus non-recoverable taxes, transport costs and any other costs in bringing the inventories to their current location and condition. Trade discounts, rebates and other similar items are deducted in determining the costs of purchase.

Where inventory is manufactured, constructed or produced, the cost includes the cost of labour, materials and overheads used during the manufacturing process.

Where inventories are acquired through a non-exchange transaction, the cost is measured at the fair value as at the date of acquisition plus any other costs in bringing the inventories to their current location and condition.

1.11.2 Subsequent Measurement

When inventories are sold, exchanged or distributed the carrying amount of those inventories are recognised as an expense in the period in which the related revenue is recognised. If there is no related revenue, the expense is recognised when the goods are distributed, or related service is rendered.

Inventories are valued at the lower of cost and net realisable value unless they are to be distributed at no or nominal charge, in which case they are measured at the lower of cost and current replacement cost.

Net realisable value is the estimated selling price in the ordinary course of operations less the estimated costs of completion and the estimated costs necessary to make the sale, exchange or distribution. Current replacement cost is the cost the Entity would incur to acquire the asset on the reporting date.

The amount of any write-down of inventories to net realisable value or current replacement cost and all losses of inventories is recognised as an expense in the period the write-down or loss occurs.

The amount of any reversal of any write-down of inventories, arising from an increase in net realisable value or current replacement cost, is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

The basis of allocating cost to inventory items is the weighted average method.

1.12 EMPLOYEE BENEFITS

1.12.1 Short-term Benefits

1.12.1.1 Provision for Staff Leave

Liabilities for annual leave are recognised as they accrue to employees. The liability is based on the total amount of leave days due to employees at reporting date and also on the total remuneration package of the employee.

Accumulating leave is carried forward and can be used in future periods if the current period's entitlement is not used in full. All unused leave will be paid out to the specific employee at the end of that employee's employment term. Accumulated leave is vesting.

NKONKOBÉ ECONOMIC DEVELOPMENT AGENCY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

1.13 PROVISIONS

A provision is a liability of uncertain timing or amount. Provisions are recognised when the Entity has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resource embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate of the provision can be made.

Provisions are reviewed at reporting date and adjusted to reflect the current best estimate of future outflows of resources. Where the effect is material, non-current provisions are discounted to their present value using a discount rate that reflects the market's current assessment of the time value of money, adjusted for risks specific to the liability.

Future events that may affect the amount required to settle an obligation are reflected in the amount of a provision where there is sufficient objective evidence that they will occur. Gains from the expected disposal of assets are not taken into account in measuring a provision. Provisions are not recognised for future operating losses. The present obligation under an onerous contract is recognised and measured as a provision.

Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, the reimbursement is recognised when it is virtually certain that reimbursement will be received if the Entity settles the obligation. The reimbursement is treated as a separate asset. The amount recognised for the reimbursement will not exceed the amount of the provision. In the Statement of Financial Performance, the expense relating to a provision may be presented net of the amount recognised for a reimbursement.

A provision for restructuring costs is recognised only when the following criteria over and above the recognition criteria of a provision have been met:

- (a) The Entity has a detailed formal plan for the restructuring identifying at least:
 - the business or part of a business concerned;
 - the principal locations affected;
 - the location, function and approximate number of employees who will be compensated for terminating their services;
 - the expenditures that will be undertaken; and
 - when the plan will be implemented.
- (b) The Entity has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement that plan or announcing its main features to those affected by it.

If it is no longer probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation, the provision is derecognised.

1.14 CONTRIBUTIONS FROM OWNERS

Ordinary shares are classified as Contributions from owners.

Ordinary shares represent an equity instrument which entitles the owner to a residual interest in the assets of an Entity after deducting all of its liabilities.

NKONKOBÉ ECONOMIC DEVELOPMENT AGENCY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

1.15 LEASES

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership.

1.15.1 Entity as Lessee

1.15.1.1 Finance Leases

At the commencement of the lease term, the Entity recognises assets acquired under finance leases as assets and the associated lease obligations as liabilities in the Statement of Financial Position.

At the inception of the lease, the assets and liabilities are recognised at the lower of the fair value of the leased property and the present value of the minimum lease payments. The discount rate to be used in calculating the present value of the minimum lease payment is the interest rate implicit in the lease. If the rate implicit to the lease is not available the Entity's incremental borrowing rate is used. Any initial direct costs of the Entity are added to the amount recognised as an asset.

Subsequent to initial recognition, the minimum lease payments are apportioned between the finance charge and the reduction of the outstanding liability. The finance charge are allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability. Contingent rents, if any, are charged as expenses to the Statement of Financial Performance in the periods in which they are incurred. The leased assets are accounted for in accordance with the stated accounting policies applicable to the assets.

1.15.1.2 Operating leases

Lease payment under an operating lease is recognised as an expense in the Statement of Financial Performance on a straight-line basis over lease term, unless another systematic basis is more representative of the time pattern of the user's benefit. The difference between the straight-lined expenses and actual payments made will give rise to a liability.

1.15.2 Entity as Lessor

1.15.2.1 Finance Leases

The Entity recognises lease payments receivable under a finance lease as assets (receivable) in the Statement of Financial Position. The asset (receivable) is calculated as the sum of all the minimum lease payments to be received, plus any unguaranteed residual accruing to the Entity, discounted at the interest rate implicit in the lease.

The asset (receivable) is reduced by the capital portion of the lease instalments received, with the interest portion being recognised as interest revenue on a time proportionate basis in the Statement of Financial Performance.

1.15.2.2 Operating Leases

Operating lease revenue is recognised in the Statement of Financial Performance on a straight-line basis over the term of the relevant lease, unless another systematic basis is more representative of the time pattern in which benefit derived from the leased asset is diminished. The difference between the straight-lined revenue and actual payments received will give rise to an asset.

NKONKOBÉ ECONOMIC DEVELOPMENT AGENCY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

1.16 FINANCIAL INSTRUMENTS

1.16.1 Initial Recognition

Financial instruments (financial assets and financial liabilities) are recognised on the Entity's Statement of Financial Position when it becomes party to the contractual provisions of the instrument.

Financial instruments are initially recognised at fair value plus, in the case of a financial asset or financial liability not at fair value, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability. If finance charges in respect of financial assets and financial liabilities are significantly different from similar charges usually obtained in an open market transaction, adjusted for the specific risks of the Entity, such differences are immediately recognised in the period it occurs, and the unamortised portion adjusted over the period of the loan transactions.

1.16.2 Subsequent Measurement

Financial instruments are categorised as follow:

- (a) **Financial instruments at amortised cost** are non-derivative financial instruments with fixed or determinable payments that are not quoted in an active market. They are included in current assets or current liabilities, except for maturities greater than 12 months, which are classified as non-current. After initial recognition, both financial assets and financial liabilities are measured at amortised cost, using the effective interest rate method. Financial assets are also subject to an impairment review.
- (b) **Financial instruments at cost** are investments in residual interests that do not have a quoted market price in an active market, and whose fair value cannot be reliably measured. Both financial assets and financial liabilities are subsequently measured at cost. Financial assets are subject to an impairment review.
- (c) **Financial instruments at fair value** comprise of financial assets or financial liabilities that are:
 - (i) derivatives;
 - (ii) combined instruments that are designated at fair value;
 - (iii) instruments held for trading;
 - (iv) non-derivative financial assets or financial liabilities with fixed or determinable payments that are designated at fair value at initial recognition; or
 - (v) financial instruments that do not meet the definition of financial instruments at amortised cost or financial instruments at cost.

Both, financial assets and financial liabilities are subsequently measured at fair value with unrealised gains or losses recognised directly in the Statement of Financial Performance.

1.16.3 Impairment and uncollectability of financial assets

Financial assets, other than those at fair value, are assessed for indicators of impairment at each reporting date. Financial assets are impaired where there is objective evidence of impairment of financial assets.

NKONKOBÉ ECONOMIC DEVELOPMENT AGENCY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

1.16.3.1 *Financial assets measured at amortised cost*

If there is objective evidence that an impairment loss on financial assets measured at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate (i.e. the effective interest rate computed at initial recognition). Cash flows relating to short-term financial assets are not discounted where the effect of discounting is immaterial. The carrying amount of the asset is reduced through the use of an allowance account. The amount of the loss is recognised in the Statement of Financial Performance.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment is reversed by adjusting an allowance account. The amount of the reversal is recognised in Statement of Financial Performance.

1.16.3.2 *Financial assets measured at cost*

If there is objective evidence that an impairment loss has been incurred on an investment in a residual interest that is not measured at fair value because its fair value cannot be measured reliably, the amount of the impairment loss is measured as the difference between the carrying amount of the financial asset and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses is not be reversed.

1.16.4 **Derecognition of financial instruments**

1.16.4.1 *Financial assets*

The Entity derecognises financial assets only when the contractual rights to the cash flows from the asset expire or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. Financial assets (receivables) are also derecognised when Council approves the write-off of financial assets due to non-recoverability.

If the Entity neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Entity recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Entity retains substantially all the risks and rewards of ownership of a transferred financial asset, the Entity continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

1.16.4.2 *Financial liabilities*

The Entity derecognises financial liabilities when the Entity's obligations are discharged, cancelled or they expire.

The Entity recognises the difference between the carrying amount of the financial liability (or part of a financial liability) extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, in the Statement of Financial Performance.

1.16.5 **Offsetting of financial instruments**

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

NKONKOBÉ ECONOMIC DEVELOPMENT AGENCY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

1.17 STATUTORY RECEIVABLES

Statutory receivables arise from legislation, supporting regulations, or similar means and require settlement by another entity in cash or another financial asset. Statutory receivables can arise from both exchange and non-exchange transactions.

1.17.1 Initial Recognition

Statutory receivables are recognised when the related revenue (exchange or non-exchange revenue) is recognised or when the receivable meets the definition of an asset. The Entity initially measure statutory receivables at their transaction amount.

1.17.2 Subsequent Measurement

The Entity measures statutory receivables after initial recognition using the cost method. Under the cost method, the initial measurement of the receivable is subsequently changed to reflect any interest or other charges that may have accrued on the receivable, less any impairment losses and amounts derecognised.

1.17.3 Impairment and uncollectability of statutory receivables

The Entity assesses at each reporting date whether there is any indication that a statutory receivable may be impaired.

If there is an indication that a statutory receivable may be impaired, the Entity measures the impairment loss as the difference between the estimated future cash flows and the carrying amount. Where the carrying amount is higher than the estimated future cash flows, the carrying amount of the statutory receivable is reduced, through the use of an allowance account. The amount of the loss is recognised in the Statement of Financial Performance. In estimating the future cash flows, the Entity considers both the amount and timing of the cash flows that it will receive in future. Consequently, where the effect of the time value of money is material, the Entity discounts the estimated future cash flows using a rate that reflects the current risk free rate and any risks specific to the statutory receivable for which the future cash flow estimates have not been adjusted.

An impairment loss recognised in prior periods for a statutory receivable is revised if there has been a change in the estimates used since the last impairment loss was recognised, or to reflect the effect of discounting the estimated cash flows. Any previously recognised impairment loss is adjusted by adjusting the allowance account. The amount of any adjustment is recognised in the Statement of Financial Performance.

1.17.3 Derecognition

The Entity derecognises a statutory receivable when the rights to the cash flows from the receivable are settled, expire or are waived or the Entity transfers the receivable and substantially all the risks and rewards of ownership of the receivable to another entity.

When the Entity, despite having retained some significant risks and rewards of ownership of the receivable, has transferred control of receivable to another entity, the Entity derecognises the receivable and recognises separately any rights and obligations created or retained in the transfer.

NKONKOBÉ ECONOMIC DEVELOPMENT AGENCY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

1.18 CASH AND CASH EQUIVALENTS

Cash includes cash on hand, cash held with banks, and call deposits. Cash equivalents are short-term highly liquid investments with registered banking institutions with maturities of three months or less from inception, readily convertible to cash without significant change in value.

Bank overdrafts are recorded based on the facility utilised. Finance charges on bank overdraft are expensed as incurred in the Statement of Financial Performance.

For the purposes of the cash flow statement, cash and cash equivalents consist of cash and cash equivalents as defined above, net of any bank overdrafts.

1.19 RECEIVABLES

Receivables are recognised initially at fair value, which approximates amortised cost less provision for impairment. Amounts receivable within 12 months from the date of reporting are classified as current.

A provision for impairment of receivables is established when there is objective evidence that the Entity will not be able to collect all amounts due according to the original terms of receivables. An estimate is made for impairment of receivables, based on past default experience of all outstanding amounts at reporting date.

Bad debts are written off in the year during which they are identified as irrecoverable, subject to the approval by the appropriate delegated authority. When a receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the Statement of Financial Performance.

1.20 TAXES (VALUE ADDED TAX)

Revenue, expenses and assets are recognised net of the amounts of value added tax. The net amount of Value Added Tax recoverable from, or payable to, the taxation authority is included in the Statement of Financial Position. The Entity accounts for value-added tax (VAT) on the payment basis.

1.21 PAYABLES AND ANNUITY LOANS

Payables and annuity loans are initially recognised at fair value and subsequently measured at amortised cost using an effective interest rate, which is the initial carrying amount, less repayments, plus interest.

1.22 CONDITIONAL GOVERNMENT GRANTS AND PUBLIC CONTRIBUTIONS

Grants, transfers and donations received or receivable are recognised as assets when the resources that have been transferred to the Entity meet the definition and criteria for recognition as assets.

NKONKOBÉ ECONOMIC DEVELOPMENT AGENCY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

Conditional grants, transfers and donations are recognised as revenue to the extent that the Entity has complied with the conditions embodied in the agreement. Where the agreement contains a stipulation to return the asset, other future economic benefits or service potential, in the event of non-compliance to these stipulations and would be enforced by the transferor, a liability is recognised to the extent that the conditions have not been met. Where such requirements are not enforceable, or where past experience has indicated that the transferor has never enforced the requirement to return the transferred asset, other future economic benefits or service potential when breaches have occurred, the stipulation will be considered a restriction and is recognised as revenue.

The liability recognised to the extent that the conditions associated with the grant, transfer or donation have not been met, always has to be cash-backed. The cash which backs up the liability is invested as a individual investment or part of the general investments of the Entity until it is utilised.

Interest earned on investments of grants, transfers and donations are treated in accordance with conditions as stipulated in the agreement. If it is payable to the grantor it is recorded as part of the creditor and if it is the Entity's interest it is recognised as interest earned in the Statement of Financial Performance.

1.23 REVENUE

At the time of initial recognition, the full amount of revenue is recognised where the Entity has an enforceable legal obligation to collect, unless the Entity has no intention of collecting this revenue. Where the Entity has no intention of collecting the revenue, rebates and discounts are offset against the related revenue. If the Entity does not successfully enforce its obligation to collect the revenue this would be considered a subsequent event.

1.23.1 Revenue from Non-Exchange Transactions

Revenue from non-exchange transactions refers to transactions where the Entity received revenue from another entity without directly giving approximately equal value in exchange.

Revenue from non-exchange transactions is generally recognised to the extent that the related receipt or receivable qualifies for recognition as an asset and there is no liability to repay the amount.

1.23.1.1 *Transfer Revenue*

Grants, transfers and donations received or receivable are recognised when the resources that have been transferred, meet the criteria for recognition as an asset. A corresponding liability is recognised to the extent that the grant, transfer or donation is conditional. The liability is transferred to revenue as and when the conditions attached to the grant are met.

Grants, transfers and donations without any conditions attached are recognised as revenue when the asset is recognised.

1.23.1.2 *Insurance Receipts*

Revenue from third parties i.e. insurance payments for assets impaired, are recognised when it can be measured reliably and is not being offset against the related expenses of repairs or renewals of the impaired assets.

NKONKOBÉ ECONOMIC DEVELOPMENT AGENCY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

1.23.1.3 *Unclaimed deposits*

All unclaimed deposits are initially recognised as a liability until 36 months expires, when all unclaimed deposits into the Entity's bank account will be treated as revenue. This policy is in line with prescribed debt principle as enforced by law.

1.23.1.4 *Revenue from Recovery of Unauthorised, Irregular, Fruitless and Wasteful Expenditure*

Income from the recovery of unauthorised, irregular, fruitless and wasteful expenditure is based on legislated procedures, including those set out in the MFMA (Act 56 of 2003), and is recognised upon the recovery thereof from the responsible party.

1.23.1.5 *Services in-kind*

Services in-kind include services provided by individuals to the Entity at no charge or where the Entity has the right to use assets at no charge.

The Entity's recognises services in-kind that are significant to its operations as assets and recognises the related revenue when it is probable that the future economic benefits or service potential will flow to the Entity and the fair value of the assets can be measured reliably.

When the criteria for recognition is satisfied, services in-kind are recognised at their fair value as at the date of acquisition.

If the services in-kind are not significant to the Entity's operations or does not satisfy the criteria for recognition, the Entity only disclose the nature and type of services in-kind received during the reporting period.

1.23.1.6 *Contributed Assets*

Contributed assets are recognised at fair value when such items of property, plant and equipment qualifies for recognition and become available for use by the Entity.

1.23.2 **Revenue from Exchange Transactions**

Revenue from exchange transactions refers to revenue that accrued to the Entity directly in return for services rendered or goods sold, the value of which approximates the consideration received or receivable.

1.23.2.1 *Investment income*

Interest earned on investments is recognised in the Statement of Financial Performance on the time proportionate basis that takes into account the effective yield on the investment.

1.23.2.3 *Rental income*

Revenue from the rental of facilities and equipment is recognised on a straight-line basis over the term of the lease agreement.

NKONKOBÉ ECONOMIC DEVELOPMENT AGENCY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

1.23.2.4 *Income from Agency Services*

Revenue arising out of situations where the Entity acts as an agent on behalf of another entity (the principal) is limited to the amount of any fee or commission payable to the Entity as compensation for executing the agreed services.

Income from agency services is recognised on a monthly basis once the income collected on behalf of agents has been quantified. The income recognised is in terms of the agency agreement.

1.23.2.5 *Other Tariffs*

Revenue arising from the application of the approved tariff of charges is recognised when the relevant service is rendered by applying the relevant tariff. This includes the issuing of licences and permits.

1.23.2.6 *Sale of goods*

Revenue from the sale of goods is recognised when all the following conditions are satisfied:

- (a) The Entity has transferred to the purchaser the significant risks and rewards of ownership of the goods.
- (b) The Entity retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold.
- (c) The amount of revenue can be measured reliably.
- (d) It is probable that the economic benefits or service potential associated with the transaction will flow to the Entity.
- (e) The costs incurred or to be incurred in respect of the transaction can be measured reliably.

1.23.2.7 *Deferred payment*

In most cases, the consideration is in the form of cash or cash equivalents and the amount of revenue is the amount of cash or cash equivalents received or receivable. However, when the inflow of cash or cash equivalents is deferred, the fair value of the consideration may be less than the nominal amount of cash received or receivable. When the arrangement effectively constitutes a financing transaction, the fair value of the consideration is determined by discounting all future receipts using an imputed rate of interest.

The difference between the fair value and the nominal amount of the consideration is recognised as interest revenue.

1.24 **BORROWING COSTS**

Borrowing costs that are incurred by the Entity are expensed in the Statement of Financial Performance in the period during which they are incurred, regardless of how the borrowings are applied.

NKONKOBÉ ECONOMIC DEVELOPMENT AGENCY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

1.25 UNAUTHORISED EXPENDITURE

Unauthorised expenditure is expenditure that has not been budgeted, expenditure that is not in terms of the conditions of an allocation received from another sphere of government, municipality or organ of state and expenditure in a form of a grant that is not permitted in terms of the Municipal Finance Management Act (Act No. 56 of 2003). Unauthorised expenditure is accounted for as an expense (measured at actual cost incurred) in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.26 IRREGULAR EXPENDITURE

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No. 56 of 2003), the Municipal Systems Act (Act No. 32 of 2000), the Public Office Bearers Act, and (Act. No. 20 of 1998) or is in contravention of the Entity's Supply Chain Management Policy. Irregular expenditure is accounted for as expenditure (measured at actual cost incurred) in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.27 FRUITLESS AND WASTEFUL EXPENDITURE

Fruitless and wasteful expenditure is expenditure that was made in vain and could have been avoided had reasonable care been exercised. Fruitless and wasteful expenditure is accounted for as expenditure (measured at actual cost incurred) in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.28 CONTINGENT LIABILITIES AND CONTINGENT ASSETS

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Entity. A contingent liability could also be a present obligation that arises from past events, but is not recognised because it is not probable that an outflow of resources embodying economic benefits will be required to the obligation or the amount of the obligation cannot be measured with sufficient reliability.

Contingent assets represent possible assets that arise from past events and whose existence will be confirmed only by an occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Entity.

The Entity does not recognise a contingent liability or contingent asset. A contingent liability is disclosed unless the probability of an outflow of resources embodying economic benefits or service potential is remote. A contingent asset is disclosed where the inflow of economic benefits or service potential is probable.

1.29 CAPITAL COMMITMENTS

Capital commitments disclosed in the financial statements represents the contractual balance committed to capital projects on reporting date that will be incurred in the period subsequent to the specific reporting date.

NKONKOBÉ ECONOMIC DEVELOPMENT AGENCY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

1.30 EVENTS AFTER REPORTING DATE

Events after the reporting date are those events, both favourable and unfavourable, that occur between the reporting date and the date when the financial statements are authorised for issue. Two types of events can be identified:

- (a) those that provide evidence of conditions that existed at the reporting date (adjusting events after the reporting date); and
- (b) those that are indicative of conditions that arose after the reporting date (non-adjusting events after the reporting date).

If non-adjusting events after the reporting date are material, the Entity discloses the nature and an estimate of the financial effect.

1.31 RELATED PARTIES

The Entity regards a related party as a person or an entity with the ability to control the Entity either individually or jointly, or the ability to exercise significant influence over the Entity, or vice versa.

Management is regarded as a related party and comprises the Board Members, Chief Executive Officer and Chief Finance Manager.

A close family member of management is also considered to be related party. A person is considered to be a close member of the family of another person if they are married or live together in a relationship similar to a marriage or are separated by no more than two degrees of natural or legal consanguinity or affinity.

Remuneration of management includes remuneration derived for services provided to the Entity in their capacity as members of the management team or employees. Benefits derived directly or indirectly from the Entity for services in any capacity other than as an employee or a member of management do not meet the definition of remuneration. Remuneration of management excludes any consideration provided solely as a reimbursement for expenditure incurred by those persons for the benefit of the Entity.

The Entity operates in an economic environment currently dominated by entities directly or indirectly owned by the South African government. As a result of the Constitutional independence of all three spheres of government in South Africa, only parties within the same sphere of government will be considered to be related parties. Only transactions with such parties which are not at arm's length and not on normal commercial terms, are disclosed.

1.32 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

In the process of applying the Entity's accounting policy, management has made the following significant accounting judgements, estimates and assumptions, which have the most significant effect on the amounts recognised in the financial statements:

1.32.1 Impairment of Receivables

The calculation in respect of the impairment of receivables is based on an assessment of the extent to which debtors have defaulted on payments already due, and an assessment of their ability to make payments based on their creditworthiness. This was performed per service-identifiable categories across all classes of debtors.

NKONKOBÉ ECONOMIC DEVELOPMENT AGENCY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

1.32.2 Useful lives and residual values

The useful lives of assets are based on management's estimates. Management considers the impact of technology, availability of capital funding, service requirements and required return on assets to determine the optimum useful life expectation, where appropriate.

The estimated residual values of assets are also based on management's judgement on whether the assets will be sold or used to the end of their useful lives, and what their condition will be at that time.

1.32.3 Provisions and Contingent Liabilities

Management's judgement is required when recognising and measuring provisions, as well as when measuring contingent liabilities. Provisions are discounted where the time value effect is material.

The provision for rehabilitation of the landfill site is recognised as and when the environmental liability arises. The provision is calculated by a qualified environmental engineer. The provision represents the net present value at the reporting date of the expected future cash flows to rehabilitate the landfill site. The discount rate used to calculate the effect of time value of money is linked to the index for earthwork as published by Statistics South Africa.

1.32.4 Financial assets and liabilities

The classification of financial assets and liabilities, into categories, is based on judgement by management. In making the judgement, management considered the definition and recognition criteria for the classification of financial instruments as set out in the Standard of GRAP on Financial Instruments.

1.32.5 Revenue Recognition

Accounting Policy on Revenue from Non-Exchange Transactions and Accounting Policy on Revenue from Exchange Transactions describes the conditions under which revenue will be recognised by management of the Entity.

In making their judgement, management considered the detailed criteria for the recognition of revenue as prescribed in the Standard of GRAP on Revenue from Exchange Transactions and Standard of GRAP on Revenue from Non-Exchange Transactions. Specifically, when goods are sold, whether the significant risks and rewards of ownership of the goods have been transferred to the buyer and when services are rendered, whether the service has been performed.

8 PAYABLES FROM EXCHANGE TRANSACTIONS

Trade Payables	474 405	2 529 422
Sundry Creditors	-	3 256
Total	474 405	2 532 678

Payables are being recognised net of any discounts received.

As prescribed by the MFMA, all payables are payable within 30 days. This credit period granted is considered to be in line with industry norms. The fair value of payables approximates their carrying value.

Payables are not secured.

9 UNSPENT PUBLIC CONTRIBUTIONS AND DONATIONS

Raymond Mhlaba Microcredit Fund (RMMF)	637 158	-
Total	637 158	-

Detail reconciliations of all public contributions and donations are included in note 12. Unspent balances are recognised to the extent that conditions are not yet met.

Due to the short term nature of unspent grant balances, the carrying value approximates the fair value of the unspent conditional grants at year-end.

10 CURRENT EMPLOYEE BENEFITS

Leave Provision	280 250	268 309
Total	280 250	268 309

The movement in Staff Leave are reconciled as follows:

Opening Balance	268 309	222 148
Contribution during the year	11 941	46 161
Balance at the end of the year	280 250	268 309

Staff leave accrued to employees according to collective agreement. Provision is made for the full cost of accrued leave at reporting date. This provision will be realised as employees take leave or in the event of encashment at termination.

25 BUDGET COMPARISONS

Material variances are considered all variance greater than R100 000.

25.1 MATERIAL VARIANCES BETWEEN ORIGINAL AND FINAL BUDGET

Revenue

Government Grants and Subsidies were decreased as a result of the Service SETA programme implemented later than anticipated.

Interest earned was decreased due to Service SETA programme implemented later than anticipated.

Operating Expenditure

Other Expenditure was decreased as a result of the Service SETA programme implemented later than anticipated.

Capital Expenditure

Capital expenditure was decreased as a result of furniture donated from a private entity.

25.2 MATERIAL VARIANCES BETWEEN FINAL BUDGET AND ACTUAL OUTCOME

Revenue

Government Grants and Subsidies were less than budgeted for due to IDC grant monies not received and the implementation of the Microcredit Fund programme being delayed.

Other Revenue was less than budgeted due to operating losses suffered from the brick manufacturing.

Operating Expenditure

Employee Related Costs was less than budget due to two vacant positions which were not filled in the current year.

Other Expenditure was less than budgeted for due to IDC grant monies not received and the implementation of the Microcredit Fund programme being delayed.

Capital Expenditure

No material variances.

2017

2016

29 FINANCIAL RISK MANAGEMENT (CONTINUED)

29.2 Currency risk (Market Risk)

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The financial instruments of the municipality is not directly exposed to any currency risk.

29.3 Interest rate risk (Market Risk)

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The following balances are exposed to interest rate fluctuations:

Cash and Cash Equivalents (excluding cash on hand)	946 080	101 370
Net balance exposed	946 080	101 370

Potential effect of changes in interest rates on surplus and deficit for the year:

0.5% (2016 - 0.5%) increase in interest rates	4 730	507
1.0% (2016 - 0.5%) decrease in interest rates	(9 461)	(507)

South Africa is currently in an upward interest rate cycle and management does not foresee a decrease in the next 12 months.

29.4 Liquidity risk

Liquidity risk is the risk encountered by the Municipality in the event of difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

Liquidity risk is mitigated by approving cash funded budgets at all times to ensure commitments can be settled once due over the long term. The Municipality also monitors its cash balances on a daily basis to ensure cash resources are available to settle short term obligations.

The following balances are exposed to liquidity risk:

	Within 1 Year R	Between 2 to 5 years R	After 5 years R
